

# One Search: Hints and Tips

J. D. Williams Library  
University of Mississippi

## What One Search does

Searches simultaneously across the library catalog, 80-85% of our databases, e-reference works, archives, government documents

Can limit search to peer-reviewed materials and online availability and refine search through more than half a dozen types of filtering

Uses familiar database searching and layout

Can expand your search beyond our library

Can focus your search on a discipline

Provides MLA and APA citations

Saves items to export to RefWorks or email to yourself

Can save searches to keep current through RSS feeds or alerts through email

Provides a mobile version for phones (iPad uses full version)

Finds known materials when you have just partial information such as a DOI

## One Search does not ...

Search course reserves (Use the catalog instead)

Renew your books (Use My Library to renew books)

Evaluate your sources

Create a perfectly formatted bibliography

## Search Library Resources

## Search Tips

### Truncation

Type \* at the point where word endings might vary.  
Example: Type parent\* to search for parenting, parental, parentless.

### Wild cards

Type ? in the middle of phrase or word to search for any one-character variation on that combination.  
Example: Type Ols?n to search for Olsen or Olson.

### Phrases

Use quotation marks to search for word strings or phrases.  
Example: Type "standardized test" to look for sites that use the words as a phrase.

### Boolean operators

Use AND between keywords to narrow your search. Example: Type paint and wallpaper.  
Use OR between keywords to broaden your search. Example: Type paint or wallpaper.

### NOT case sensitive

Use any variation of capitalization.  
Example: Searching "white house" and "White House" brings same results.

### Advanced Search

Use the advanced search for options called Search Fields such as ISBN and Subject and additional rows for Boolean operators.

### Search History

Rerun searches from the same session. Sign in to set up alerts and RSS feeds for favorite searches.

### Find eBooks only

Use the left menu. Select Source Types/Show More. Scroll through the box to eBooks.

### Journal Title search

Use the eJournal tab or the Library tab/Quick Links/Journal Finder.

The screenshot shows the One Search results page for the query "treatment postpartum depression". The search results are displayed in a list format. Annotations with red arrows point to various features:

- After you've run your search the powerful left menus let you refine, limit and filter.** Points to the left sidebar containing "Refine Results", "Current Search", "Find all my search terms", "Expanders", "Limiters", "Limit To", "Source Types", and "Show More Options set".
- Add the search to a folder. Grab a permanent link to your search. Set up a search alert.** Points to the "Share" button in the top right corner.
- See detailed record** Points to the "Full Text" and "PDF Full Text" links for the first result.
- Save to folder** Points to the "Save" button in the top right corner.
